

Jiachang Zhang

zjc010100000@stu.xjtu.edu.cn | github.com/Eric-Zhang007 | zjc301.top

EDUCATION

Xi'an Jiaotong University (XJTU)

B.Eng. in Artificial Intelligence (Elite Class), Qian Xuesen College

- First-year weighted average: 92.4 / 100; now in second year
- Coursework: Calculus, Linear Algebra, Probability, Programming (C/C++), Data Structures

Xi'an, China

Sep 2025 – Present

RESEARCH INTERESTS

Embodied AI | World Models | Video Understanding | Mixture-of-Experts | Data Collection for Learning Systems

RESEARCH EXPERIENCE

Shanghai Jiao Tong University (SJTU)

Intern @ SJTU

Shanghai, China

Present

- Working on embodied failure recovery, video Mixture-of-Experts routing, and multi-agent world-model data collection.

RESEARCH PROJECTS

DIET: Deletion-response Expert Trimming for Video Diffusion Transformers

ICLR 2027 submission | [arXiv:2609.37829](https://arxiv.org/abs/2609.37829)
Jiachang Zhang, Teng Hu, Bohao Feng, Songhang Shen, Wenqiang Wang, Hongqian Deng, Ran Yi (first three authors contributed equally)

- Training-free pruning of a video diffusion Mixture-of-Experts (LingBot-Video 30B-A3B): 50% of the experts removed, reducing the checkpoint footprint from 57 GB to 30 GB while the official VBench Total rises from 0.7941 to 0.8115 on a fixed 284-case protocol.
- Code and project page released: github.com/Eric-Zhang007/Video-DiT-MoE-Pruning

Embodied Failure-Recovery Data Collection and Benchmark

AI2-THOR

AAAI submission in preparation

- Developing an auditable AI2-THOR collection workflow for task failures, recovery attempts, replayable branches, and counterfactual trajectories.
- Building mutation injection and replay validation around captured observations, action logs, and branch-level evidence for recovery evaluation.

Multi-Agent World-Model Data Collection

- Contributing multi-agent interaction data and quality control for world-model research; model training is planned for a later stage.

SKILLS

Programming: Python, C/C++
ML/DL Frameworks: PyTorch, NumPy
Tools & OS: Git, Linux, Shell, $\LaTeX$
Languages: Chinese (native); TOEFL iBT: 89

HONORS & AWARDS

RoboCup Competition		National Third Prize
ICPC XJTU Campus Contest	Bronze Medal	Mar 2026
China College Innovation Contest (Campus)	Silver Award	Dec 2025
Shaanxi Provincial College Math Contest	Third Prize	Nov 2025
